Picking Up a Mooring Buoy

Step 1:
Prepare a line approx. 30 ft.
Approach mooring very slowly.

Check integrity of mooring before use.

Step 2:
Hook the pick up line.

Loop the prepared line through the eye of the pick up line.

Step 3:
Secure line to the cleat on the other side.

Step 4:
A properly secured mooring line.

Releasing a Mooring Buoy

Step 1: Motor forward slowly to take the pressure off the line.

Step 2:
Remove your line from the pick-up line.

Step 3:
Walk the pick-up line to one side of the vessel.

Toss the line away from the vessel so that the propeller passes clearly.

Step 4:
Drift back slowly to clear the pick up line.

Motor forward slowly staying clear of the mooring and pick up line.

Protecting the Marine Environment of the BVI

BVI Anchoring & Mooring Regulations

The National Parks Regulations 2008 strictly prohibit the following activities:

- Anchoring in the Wreck of the Rhone Marine Park;
- Securing more than one vessel to a mooring at any time;
- Fishing from a mooring;
- Exceeding the 90 minute time limit on a mooring;
- Carrying out any activity that could damage a mooring;
- Endangering the health and safety of divers and snorkelers within a mooring area;
- Exceeding a speed of 5 knots within 250 yards of a mooring;
- Anchoring within 100 yards of a mooring, where anchoring is permitted in sand;
- Discharging sewage whilst on or near a mooring
- Mooring a vessel overnight;

Requirements

A marine conservation permit is required by law to use a National Park mooring.

Reminders

- Do not anchor on coral at any time;
- The maximum size vessel permitted to use a National Parks Trust mooring is 70ft or 35 tons.

Penalties

- Failure to adhere to these Regulations may result in a fine not exceeding \$10,000 or imprisonment for a maximum of 1 year.

Mooring Colour Code System

- Yellow – Commercial vessels only
- Red – Private and bareboat vessels
- Blue – Dinghies only
